

Notice

Identity theft is a criminal act that may result in prosecution by the law. If medical treatment is obtained using a fraudulent identity, the potential exists for the medical records of the victim to become mixed with the medical history of the criminal who obtains the services.

In order to reduce the risk of identity fraud we are requesting that you provide proof of your identity prior to treatment. If you do not have photo identification, we will request two (2) other types of identification, one of which has been issued by a state or federal agency.

Thank you for your cooperation.
